## CRITERION I – CURRICULAR ASPECTS

### 1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

As the institution is affiliated to Rashtrasant Tukadoji Maharaj Nagpur University, it follows the prescribed curriculum of the university. In the beginning of the academic year, the principal holds a meeting with the teaching staff of the college, gives instructions to prepare academic calendar for the current academic session, and forms various committees for the smooth running of academic, co-curricular and administrative activities. The timetable committee prepares the timetable and the workload is distributed among the faculty members. Apart from permanent teaching staff, qualified contractual and contributory teachers are appointed to fulfil the teaching load. All the faculty members prepare the annual teaching plan and maintain daily diary to note their contribution to academic and co-curricular activities. Along with regular teaching, the teachers conduct surprise tests (at least two for a semester), a test examination, give home assignments and conduct vi-va before the university examination. After the first surprise test, the teachers come to know about the performance of the students and become confident to treat them accordingly: remedial classes for slow learners and additional assignments for advanced learners. After assessment and evaluation, every teacher analyses the COs and takes the remedial measures to improve it. The teachers adopt ICT (Power point presentation, audio visual aids and social media ) along with traditional methods (Lecture, question answer, illustrations from society, mass media, history, mythology, etc.) to make teaching-learning process lively and interesting. Study tours, industrial visits, visits to cultural sites, community service and guest lectures are organised to bring an end to the monotonous teaching- learning process, and inculcate values and ethics among the students. The students are encouraged to do projects on current national issues. Skill-based workshop, value added course and seminar are organised for the all-round development of the personality of the students. For the accomplishment and enrichment of the curriculum, feedbacks from the students, alumni and teachers are collected, analysed and action taken at the end of the academic year. All the faculty members maintain their departmental files to preserve the documents: Academic calendar, individual timetable, syllabus, teaching plan, question papers of surprise tests & test examinations, home assignments, question papers of university examinations, question banks and attendance of remedial classes.

### 1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	No
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained
<p>Feedback formats have been designed to collect feedbacks from all the stakeholders (except management): the faculty on curriculum students on curriculum, teaching-learning, evaluation and infrastructure alumni on curriculum, infrastructure and programme exit and parents' feedback on infrastructure and other facilities. Every year, the alumni and parent-teacher committee organise two meetings to interact with them, and to collect their feedbacks. After collecting the feedbacks, analysis is done and it (analysis) is followed by action. However, owing to Covid-19 pandemic, the committee became unable to hold the meeting at the end of the Academic Session-2019-2020. Recently, feedbacks from the students and alumni have been collected online. Analysis of the feedbacks has been done. After doing the analysis, the strength and weakness of the institution have been found. The strength of the institution will certainly encourage all the stakeholders to contribute more for the</p>

progress of the institution. And the measures will be taken to come over the weakness for the overall development of the institution. Thus, feedbacks on the various aspects of the institution help it to achieve its goal.

## CRITERION II – TEACHING- LEARNING AND EVALUATION

#### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Yes, students mentoring system is available in the college. After the admissions are over during every academic session, the principal allots the mentees to the mentors (fulltime teachers). According to the ratio of the fulltime teachers and total number of students, the mentees are allotted to the mentors. Every mentor, according to the instruction of the principal, meets his/her mentees once in a week. He/she (mentor) maintains an attendance register of the mentees. In the beginning, every mentor meets his/her mentees and speaks them about the role of the mentor in their lives. The mentors sincerely interact with the mentees, and monitor their attendance in the class, academic and personality development. The mentors counsel the mentees on their issues: academic, personal, social, psychological, health, etc. The mentors encourage the mentees to communicate with them personally during the college hour and at any time through social media to get counselling. Keeping in view their (mentees') academic skills, the mentors also give career counselling. and guide them on external and competitive examinations. The mentors, in a nut shell, look after the overall development of the mentees.

Number of students enrolled in the institution	Number of fulltime teachers	Mentor : Mentee Ratio
233	9	1 : 26

#### 2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The Internal Examination Committee of the college has been constituted by the principal to conduct the internal examinations smoothly. The college conducted two unit tests and a college test examination in the annual pattern of the programmes. However, in semester pattern, unit tests are replaced by surprise tests. This reformation has saved the regular teaching- learning process from disruption ( happened during unit tests). At present, two surprise tests and a test examination are held for each semester. All the faculty members conduct surprise tests, assess and evaluate the answer papers, and show those to the students to improve their standard and to encourage the students who perform well. Apart from two mandatory surprise tests, the teachers conduct objective tests, open book tests and question-answer session to improve their (students') standard. The aim of surprise test is to save time ( no timetable, no preparation) and to imbibe culture of regular studies in the students. The purpose of college test examination is to acquaint the students with the university examination and to drive out the phobia of examination from their minds. The question papers are set in the pattern of university examination to

well prepare them for the external examination. After the examination is held, the answer papers are evaluated and results are declared by the Examination Committee. The examinees also get the opportunity to see their answer sheets after evaluation. The institution, therefore, aims to enhance the quality of its students through continuous internal assessment and evaluation.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The college is affiliated to Rashtrasant Tukadoji Maharaj Nagpur University. Therefore, it follows the academic calendar of the university for the external examinations. However, the college prepares its own academic calendar at the beginning of the academic session. It (calendar) includes the tentative schedule for all the curricular and o-curricular activities. In curricular activities, the calendar schedules the activities which come under the purview of teaching and learning: completion of syllabus, guest lectures, visits, study tours, projects, seminars, certificate course, internal evaluations, etc. So far as the co-curricular activities are concerned, the schedule of all the activities of NSS, Cultural Department, Women Cell and Sports Department is set in the academic calendar of the college. The university prepares timetable, sets question papers, conducts examinations and declares results of the external examinations. The college examination committee follows the guidelines-pattern of question papers, time, notice and timetable a fortnight prior to every examination, evaluation, and declaration of result- of the university to conduct internal examinations. The college examination committee and faculty members take the help of college website, notice board and social media (WhatsApp groups) to convey the messages to the students, and to answer their (students') queries. Every department of the college, apart from IQAC, has its own academic calendar for the activities of the department.

### CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

#### 6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Decentralization and Participative management of the college during the last year encouraged the stake holders to contribute more and more to the development of the institution. Two most invaluable stake holders (faculty members and students' representatives) enjoyed utmost liberty to use their intellectual skills for improving the quality of the institution. The faculty members got full freedom to prepare the academic calendar of their concerned departments. Therefore, they planned the academic activities to make Teaching-Learning process more effective and interesting. Apart from regular teaching, the teachers made strategy for teaching through ICT, guest lectures, remedial classes, tours visits, and counselling. Owing to decentralization and participative management, the teachers could transform monotonous teaching-learning process to vibrant and exciting. The next stake holders who were at liberty to play the leadership role were the students' representatives of the

college. They were free to organise the cultural and co-curricular activities of the college. Although the teachers give them guidelines and monitor their activities, they were free to execute the activities. For example, they organised programme on Teachers' Day, during Cultural Week and in NSS Camp. This kind of freedom helped them to develop their skills and imbibed leadership quality in them by boosting their self-confidence. While executing their work, success gave them immense pleasure and failure an opportunity to learn. They also played a major role with the teachers in organising awareness programmes and community service. Decentralization and participative management, therefore, helped both the students and teachers to portray their managerial skills for the development of the institution.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

## 6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	The institution does not design its own curriculum as it is an affiliated college. It follows the curriculum framed by the University. However, feedbacks from the students, alumni and teachers on new curriculum are collected, analysed and sent to the members of the Board of Studies. At the time of implementation of new syllabus, workshops/seminars are organised by the Board of Studies in collaboration with other institutions to discuss everything about it. The faculty members of the concerned departments attend such seminars/workshops for its effective implementation. Study tour, industrial visit and workshop/seminar are organised for the students to enrich the curriculum.
Teaching and Learning	Apart from traditional methods of teaching-learning method, the institution adopts ICT to enhance its effectiveness. Guest lectures, workshop/seminar are organised to upgrade its standard. To imbibe reading culture in the students, they are encouraged to use the reading room and library. Owing to Social Media, the teaching-learning process is not confined to any specific time or day. The faculty members are connected with the students (24x7) through WhatsApp groups. These groups have increased the interaction between the teachers and students to a greater extent. This has transformed monotonous teaching-learning process participative and motivating.

<p>Examination and Evaluation</p>	<p>The Examination Committee conducts Test Examinations twice a year ( for odd and even semesters ) before the University Examinations. The question papers are set in the pattern of the university question papers. The purpose of the test examination is to drive out the examination phobia from the mind of the students and to prepare them well for the external examination. After the test examination, answer papers are assessed, shown to the students to point out their mistakes and to appreciate their good performance. The results are declared by the Examination Committee. The faculty members hold two surprise tests for each semester, regular class tests, tutorial and open book tests to improve the results.</p>
<p>Research and Development</p>	<p>The principal encourages the faculty members to enhance their research and publication for updating their knowledge and developing their academic achievements. The faculty members also voluntarily devote themselves to research to provide quality education to the students. Owing to this kind of motivation, ninety per cent of the faculty have been awarded with Doctoral Degrees. The institution encourages the faculty to attend seminars/conferences/workshops by giving them incentive of reimbursement of delegation fees. Therefore, they attend and present papers in such events. The teachers also publish research papers in journals and conference/ seminar proceedings. They guide the students to do projects to acquaint them with methods of research.</p>
<p>Library, ICT and Physical Infrastructure / Instrumentation</p>	<p>Every year, new text books, reference books, journals, e-journals and CDs are added to the previous stock. The data of the session 2019-2020 has already been given in 4.2.1. Augmentation of the library resources help both the teachers and students in teaching-learning process, and research. The college possesses 2 laptops, 25 computers with a numbers of peripherals: printers, scanners, photocopiers and LCD projectors which enrich its infrastructure. It has also WI-FI and VPN connectivity. Internet connectivity is available free of cost to the staff and students in the computer lab, library, office and staff</p>

	rooms. And students are allowed to use INFLIBNET and e-resources in the library. It has also a contract of maintenance for its IT infrastructure.
Human Resource Management	All the staff members (both teaching and nonteaching) of the college work in coordination with each other to achieve its goal. It encourages its employees to improve their performance and rewards them whenever they perform well. It provides power and position to them who actually deserve those. The faculty members are encouraged to attend faculty improvement programmes: Refreshers/Orientations/Short Term Courses/Workshops, and nonteaching staff seminars, workshops and training programmes. The students are also provided with the opportunity to participate in skill-based workshops, intra and intercollegiate activities, sports and cultural programmes for their development.
Industry Interaction / Collaboration	The institution organises industrial visits for the students to imbibe entrepreneurial skills in them. These activities help in enriching the curriculum. The placement cell of the college strives hard for the career counselling of the students. In this session, the cell organised a programme in collaboration with a Solar Energy Company to give the students information about Renewable Solar Energy and its employability scope. It has also signed MOUs with some business organisations for mutual benefits, especially for sports, certificate course and training programme.
Admission of Students	Initially, offline admissions were done in the institution. The procedure for admissions now has been reformed and the students are being admitted through online process. In the beginning of the academic session, the applicants fill in the admission forms and the data of the admitted candidates are uploaded on the site of the university for enrolment. This procedure helps in filling the examination forms of the students. They also avail scholarship on the basis of the uploaded data. Therefore, it (online admission) has made the process easy and transparent.

6.2.2 – Implementation of e-governance in areas of operations:

E-governance area	Details
<p>Planning and Development</p>	<p>The management of the institution makes strategy for its development. The goal is set to upgrade its standard. And all the stakeholders try hard to achieve the aim under the guidance of the principal and management. The institution is also planning for NIRF/ISO/QS ranking in future.</p>
<p>Administration</p>	<p>The management of the institution makes strategies, programmes and policies, while the principal shoulders the responsibilities of their execution. The administrator (principal) builds the link between the management and teachers. The principal assesses the feedbacks from the students on the teachers, library, office and infrastructure, and works towards improving it. He (principal) has a dynamic, flexible and impartial approach towards administration.</p>
<p>Finance and Accounts</p>	<p>The management looks after the budget of the institution. The principal maintains the record of the expenses. The fees from the students are collected and accounts maintained by the staff of the office. According to the requirements, disbursement of the funds is done by the office with the permission of the principal. The record of the annual audit balanced sheet is properly maintained.</p>
<p>Student Admission and Support</p>	<p>The institution follows the mandate of Government of Maharashtra while giving admissions to the applicants. Most of students come from socially and economically backward families. According to the policies of the Government, they are eligible for scholarships for belonging to various backward categories (SC/ST/OBC/NT/EBC). During the duration of the programmes, they get the support of the institution in grooming their aptitude/soft skills, providing financial support for projects, sports and cultural programmes for their development.</p>
<p>Examination</p>	<p>The final examination (external/university) for each semester is conducted by the university. The institution follows the schedule of the university. The faculty members of the college conduct oral tests/practical, assess home assignments, award internal marks and submit internal mark sheets</p>

to the office. Later, internal marks are sent to the university for declaration of results.

### 7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

Plantation of Trees. Clean Campus. Compost from Organic Waste. Rain Water Harvesting. Use of Solar Energy.

## 7.2 – Best Practices

### 7.2.1 – Describe at least two institutional best practices

**Best Practice: 1**

**1. Title** Improving communication skills through teaching-learning process and ICT

**2. Goal of the Best Practice** ? To educate the students in true sense (to make them confident, fearless and independent) through the process of teaching and learning. ? To improve the communication skills of the students. ? To bring out the innovative quality in the students. ? To imbibe reading habit in the students. ? To encourage the students to take their own decision. ? To make the students capable of using the modern gadgets. ? To make the students employable.

**3. The Context** ? The students of the institution come from the underprivileged section of society. ? Their poor educational background makes them shy to express their difficulties before the teachers. ? They lack communication skills, hence fail to develop their personality. ? They show disinterestedness towards learning. ? They do not have self-confidence and decision-making power. ? The students lag behind academic progress owing to lack of modern gadgets which are the need of the day. ? They lack employability.

**4. The Practice** The institution implements the practice of Improving Communication skills through Teaching Learning process, and Information and Communication Technologies to make this process effective. The practice is as given below:- ? The teachers adopt both traditional and modern (ICT) methods of teaching to resolve the issues of the students. ? While teaching, the teachers interact with the students. They (students) are encouraged to give answer and put questions. This process enhances their (students) level of confidence. ? After completion of a chapter, they (students) are asked to write the answers of the questions of the chapter. Subsequently, the answer sheets are assessed and returned with the remarks of the teachers. It improves their writing skill. ? To make teaching-learning enjoyable and effective, students and faculty exchange programmes are held through MOU with other colleges. ? Guest lectures are organized to improve their academic/non-academic skills for better professional/personal life. ? Group discussions (on their subjects) are held to make learning participative and develop leadership quality among students. ? Smart classrooms bring an end to monotonous teaching learning process. ? Computer lab with internet is made available to the students to upgrade their academic skill. ? Language lab has been installed to improve the communication skills (listening speaking) of the students. ? What's App groups are formed to connect the faculty and students always. Interaction through the groups enhances their (students') communication skills and solves their issues. ? Skill based certificate courses and workshops are organized to make them employable.

**Limitations:-** ? All the classrooms are not smart classrooms. ? In students exchange programme, it is not feasible to give opportunity to all the students of a class. ? It is not possible to accommodate all the students of a class in the computer lab at a time. ? All the students do not possess smart phones.

**5. Evidence of Success** ? Initially, the students become unwilling to take part in the practices. However, they become interested to participate in the activities gradually. ? Their attendance in the classrooms rises. ? Due to the practice, they become bold and confident. ? They start taking their own decisions. ? They like to have interactive sessions in workshops and certificate courses. ? They confidently give answers and ask questions to their teachers in the classroom. ? They appear in the examination without fear. ? It helps them to perform well in the examination. ? The alumni of the college are going for higher education, job and self-employment.

**6. Problems Encountered and Resource Required:-** ? It is challenging to educate the students with weak educational background. They lack

interest in studies. ? They do not have confidence to stand and speak. ? Completion of course content is a major issue because of semester pattern. The teachers are bound to complete the syllabus within the stipulated time. The teachers, therefore, get less time to organize skill-based activities. ? Efficient teachers are the resources to motivate the students and build their confidence. ? Because of the efforts of the teachers, the students become capable of improving their communication skills. ? The gadgets (computers with internet, LCD projector Language lab) of the college help the students to achieve professional skills. 7. Notes Healthy environment is needed to develop work culture in the faculty and students. Personality development programmes should be organized to enhance the communication skills of the students. Giving them small responsibilities under the supervision of the teachers would make them confident and responsible. Provide them with ample scope-books from college and personal library of the faculty, computer with internet facility, smart class room, language lab, other study material, proper guidance, skill based certificate courses, seminars/ workshops/guest lectures, counselling and cordial relationship between the faculty and students-to grow and develop. The students imitate their teachers most. Therefore, the activities of the teachers should encourage and inspire them in their lives. Faculty and student exchange programme with other nearby colleges, organizing study tours/visits, and giving stress on sports and games would bring an end to monotony in teaching-learning process.

**Best Practice-II:-Title:-Contribution of Waste Management to Clean Green Campus**  
**Objective of the Practice:-**To ensure the protection of the environment through effective Waste Management To increase public awareness towards environmental issues To get benefits from reducing and reusing the waste material which otherwise could be hazardous To enhance the number of students and staff involvement in practice To keep the Campus clean and green To use the innovative idea to transform Waste of the Campus to Compost for the nourishment of the trees To make the Campus beautiful

**Context of the Practice:-**The context of the practice is to handle the organic waste in and around the campus and reuse it for creative purposes to have healthy environment. **The Practice:-**The organic waste (dry leaves, grass, weed, paper, etc.) which is found in and around the campus could create health hazards. Therefore, the institute takes initiative to convert it to compost. The staff, students and NSS unit of the college work together for this creative and useful venture. They collect the waste, put it in the dug pit and leave it to be transformed into compost. After few months, it is taken out of the pit and used for the growth and nourishment of the trees. It does not need any financial resources. This practice keeps the campus clean. It brings awareness in the students and public. It also helps to control environmental pollution. When it is added to the soil, it increases the fertility of the soil.

**Evidence of Success:-** The tilt of the students and staff towards the cleanliness of the campus **Pollution Free, Clean, Green beautiful Campus** **Problems Encountered and Resources Required:-** Initially, some of the students became unwilling to contribute to this programme. Later, the unwilling students could be convinced with the help of the senior teachers and NSS unit of the college. During rainy and Summer season, it was difficult to carry out this programme. Later, we have started taking the advantage of fair weather in rainy and morning time in summer to achieve the goal.

**Notes:-**An institution needs a good ambience to encourage its stake holders to spend more time on the campus. Therefore, a pollution-free, clean and green campus is definitely providing a healthy environment to the staff, students and community. It is also getting compost free of cost.

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

7.3 Institutional Distinctiveness Although the prime aim of the institution is to enrich its Teaching-Learning Process, its sagacious planning is to make the students responsible citizens of the nation. It organises the following participative activities for the students to make them realize and fulfil their social responsibilities: Taking care of poor children:- Organising Summer Camp for them, Visiting Slums and Donating them basic things for their studies, clothe and eatables. Having concern for the inmates of the Old-Age Home: Visiting Old-Age Home with Ration and Cooked Food, Serving them Food in Lunch, Interacting with them, and Giving them Emotional Support. Encouraging Students to play drama on Gender Sensitization in Annual Cultural Event. Organizing rallies on various Social Issues during NSS Camp. Taking part in Distribution of Grains, Pulses and Vegetables to the Poor People of the locality during the Lockdown. National Anthem and University Song are sung at the beginning of the programmes to promote National Unity, Integrity and Communal Harmony. Encouraging Students to celebrate the Birth Anniversaries of Famous Social Reformers ( Jyotiba Phule, Savitri Bai Phule, Dr. B. R. Ambedkar and others).
